

# SAFETY DATA SHEET

#### 1. Identification

Product identifier Orange Concentrated Antifreeze/Coolant

Other means of identification

**FIR No.** 195505

Recommended use Engine antifreeze/coolant

Recommended restrictions None known.

Manufacturer/Importer/Supplier/Distributor information

Company Name Ford Motor Company

Address Attention: SDS Information, P.O. Box 1899

Dearborn, Michigan 48121

USA

**Telephone** 1-800-392-3673

SDS Information 1-800-448-2063 (USA and Canada)

fordsds.com

**Emergency telephone** 

numbers

Poison Control Center: USA and Canada: 1-800-959-3673 INFOTRAC (Transportation): USA and Canada 1-800-535-5053

# 2. Hazard(s) identification

Physical hazards Not classified.

Health hazards Acute toxicity, oral Category 4

Specific target organ toxicity, single exposure Category 1
Specific target organ toxicity, repeated Category 1

exposure

Environmental hazards Not classified.

OSHA defined hazards Not classified.

Label elements

Signal word Danger

**Hazard statement** Harmful if swallowed. Causes damage to organs. Causes damage to organs through prolonged or

repeated exposure.

Precautionary statement

**Prevention** Do not breathe mist or vapor. Wash thoroughly after handling. Do not eat, drink or smoke when

using this product.

Response If swallowed: Call a poison center/doctor if you feel unwell. Rinse mouth. If exposed: Call a poison

center/doctor.

Storage Store locked up.

**Disposal** Dispose of contents/container in accordance with local/regional/national/international regulations.

Hazard(s) not otherwise classified (HNOC)

Hazard(s) not otherwise Components in this product have been shown to cause birth defects and reproductive disorders in

laboratory animals. Aspiration may cause pulmonary edema and pneumonitis. May irritate eyes and skin. May cause irritation of respiratory tract. Vapors have a narcotic effect and may cause

headache, fatigue, dizziness and nausea.

**Supplemental information** 9.13% of the mixture consists of component(s) of unknown acute oral toxicity.

FIR No.: 195505 SDS US

Issue Date: 07-26-2018

Version: 03

1/8

# 3. Composition/information on ingredients

#### **Mixtures**

| Chemical name     | Common name and synonyms | CAS number | %       |
|-------------------|--------------------------|------------|---------|
| ETHYLENE GLYCOL   |                          | 107-21-1   | 85 - 95 |
| 2,2'-Oxydiethanol |                          | 111-46-6   | 3 - 7   |

Specific chemical identity and/or exact percentage (concentration) of composition has been withheld as a trade secret.

#### 4. First-aid measures

Inhalation Move to fresh air. Call a physician if symptoms develop or persist.

Take off immediately all contaminated clothing. Wash off with soap and water. Get medical Skin contact

attention if irritation develops and persists.

Eye contact Immediately flush eyes with plenty of water for at least 15 minutes. Get medical attention if

irritation develops and persists.

chronic effects.

Call a physician or poison control center immediately. Rinse mouth. Do not induce vomiting. If Ingestion

vomiting occurs, keep head low so that stomach content doesn't get into the lungs.

Most important

symptoms/effects, acute and

delayed

Indication of immediate

medical attention and special treatment needed

Provide general supportive measures and treat symptomatically. Keep victim warm. Keep victim under observation. Symptoms may be delayed.

Convulsions. Dizziness. Nausea, vomiting. Abdominal pain. Prolonged exposure may cause

**General information** If you feel unwell, seek medical advice (show the label where possible). Ensure that medical personnel are aware of the material(s) involved, and take precautions to protect themselves. Show

this safety data sheet to the doctor in attendance.

### 5. Fire-fighting measures

Suitable extinguishing media

Unsuitable extinguishing

media

Alcohol resistant foam. Powder. Carbon dioxide (CO2).

Do not use water jet as an extinguisher, as this will spread the fire.

Specific hazards arising from the chemical

Special protective equipment

and precautions for firefighters

Upon decomposition, this product emits carbon monoxide, carbon dioxide and/or low molecular weight hydrocarbons.

Self-contained breathing apparatus and full protective clothing must be worn in case of fire.

Fire fighting

equipment/instructions

Move containers from fire area if you can do so without risk.

Specific methods Use standard firefighting procedures and consider the hazards of other involved materials.

General fire hazards No unusual fire or explosion hazards noted.

### 6. Accidental release measures

Personal precautions, protective equipment and emergency procedures

Avoid contact with eyes, skin, and clothing. Do not breathe mist or vapor. Keep people away from and upwind of spill/leak. Keep unnecessary personnel away. Ensure adequate ventilation. Local authorities should be advised if significant spillages cannot be contained. Wear appropriate protective equipment and clothing during clean-up. For personal protection, see section 8 of the SDS.

Methods and materials for containment and cleaning up Use water spray to reduce vapors or divert vapor cloud drift.

Large Spills: Stop the flow of material, if this is without risk. Dike the spilled material, where this is possible. Absorb in vermiculite, dry sand or earth and place into containers. Following product recovery, flush area with water.

Small Spills: Wipe up with absorbent material (e.g. cloth, fleece). Clean surface thoroughly to remove residual contamination.

Never return spills to original containers for re-use. For waste disposal, see section 13 of the SDS.

The miscibility and distribution of this product in water has not been determined.

**Environmental precautions** Avoid discharge into drains, water courses or onto the ground.

FIR No.: 195505 SDS US 2/8

Issue Date: 07-26-2018

Version: 03

### 7. Handling and storage

Avoid contact with eyes, skin, and clothing. Avoid prolonged exposure. Do not taste or swallow. Precautions for safe handling

When using, do not eat, drink or smoke. Provide adequate ventilation. Observe good industrial hygiene practices. Wash hands thoroughly after handling. Wear appropriate personal protective equipment. For personal protection, see Section 8 of the SDS.

Conditions for safe storage, including any incompatibilities Store locked up. Store in tightly closed container. Store away from incompatible materials (see

Section 10 of the SDS).

# 8. Exposure controls/personal protection

### Occupational exposure limits

The following constituents are the only constituents of the product which have a PEL, TLV or other recommended exposure limit. At this time, the other constituents have no known exposure limits.

| <b>US. ACGIH</b> | Threshold | Limit Values |
|------------------|-----------|--------------|
|------------------|-----------|--------------|

| Components                       | Туре                        | Value    | Form                |
|----------------------------------|-----------------------------|----------|---------------------|
| ETHYLENE GLYCOL (CAS 107-21-1)   | STEL                        | 10 mg/m3 | Aerosol, inhalable. |
|                                  |                             | 50 ppm   | Vapor fraction      |
|                                  | TWA                         | 25 ppm   | Vapor fraction      |
| US. Workplace Environmental Ex   | cposure Level (WEEL) Guides |          |                     |
| Components                       | Туре                        | Value    |                     |
| 2,2'-Oxydiethanol (CAS 111-46-6) | TWA                         | 10 mg/m3 |                     |

**Biological limit values** 

No biological exposure limits noted for the ingredient(s).

Appropriate engineering controls

Use adequate ventilation to control airborne concentrations below the exposure limits/guidelines. If user operations generate a vapor, dust and/or mist, use process enclosure, appropriate local

exhaust ventilation, or other engineering controls to control airborne levels below the

recommended exposure limits/quidelines.

Individual protection measures, such as personal protective equipment

Eye/face protection Wear safety glasses with side shields (or goggles).

Skin protection

Suitable chemical protective gloves should be worn when the potential exists for skin exposure. Hand protection

The choice of an appropriate glove does not only depend on its material but also on other quality features and is different from one producer to the other. Use protective gloves made of: Neoprene.

Polyvinyl chloride (PVC).

Wear appropriate chemical resistant clothing if applicable. Other

If engineering controls do not maintain airborne concentrations to a level which is adequate to Respiratory protection

protect worker health, an approved respirator must be worn. Respirator selection, use and maintenance should be in accordance with the requirements of OSHA Respiratory Protection

Standard 29 CFR 1910.134 and/or Canadian Standard CSA Z94.4.

Thermal hazards Wear appropriate thermal protective clothing, when necessary.

General hygiene considerations

Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective

equipment to remove contaminants.

### 9. Physical and chemical properties

**Appearance** 

Liquid. Physical state Liquid. **Form** Orange. Color Characteristic. Odor **Odor threshold** Not available. Not available. Ha Melting point/freezing point -8 °F (-22.22 °C) Initial boiling point and boiling 340 °F (171.11 °C) range

Flash point 230.0 °F (110.0 °C)

FIR No.: 195505 SDS US Version: 03

Upper/lower flammability or explosive limits

Flammability limit - lower (%)

Flammability limit - upper

Not available.

Not available.

(%)

Not available. Explosive limit - lower (%) Not available. Explosive limit - upper (%)

Not available. Vapor pressure Vapor density Not available. 1.112 - 1.118 Relative density Relative density temperature 68 °F (20 °C)

Solubility(ies)

100 % Solubility (water)

68 °F (20 °C) Solubility temp. (water) Partition coefficient Not available. (n-octanol/water)

Not available. Auto-ignition temperature **Decomposition temperature** Not available. **Viscosity** Not available.

# 10. Stability and reactivity

The product is stable and non-reactive under normal conditions of use, storage and transport. Reactivity

**Chemical stability** Material is stable under normal conditions. Possibility of hazardous Hazardous polymerization does not occur.

reactions

Conditions to avoid Keep away from heat, hot surfaces, sparks, open flames and other ignition sources. Contact with

incompatible materials.

Incompatible materials Strong acids. Strong oxidizing agents.

**Hazardous decomposition** 

products

Upon decomposition, this product emits carbon monoxide, carbon dioxide and/or low molecular

weight hydrocarbons.

#### 11. Toxicological information

# Information on likely routes of exposure

May cause damage to organs by inhalation. May cause damage to organs through prolonged or Inhalation

repeated exposure by inhalation. Vapors have a narcotic effect and may cause headache, fatigue,

dizziness and nausea.

May be harmful in contact with skin. May be irritating to the skin. Skin contact

Direct contact with eyes may cause temporary irritation. Eye contact

HARMFUL OR FATAL IF SWALLOWED. Ingestion

Symptoms related to the physical, chemical and toxicological characteristics Convulsions. Dizziness. Nausea, vomiting. Abdominal pain.

### Information on toxicological effects

In high concentrations, vapors are anesthetic and may cause headache, fatigue, dizziness and Acute toxicity

central nervous system effects. HARMFUL OR FATAL IF SWALLOWED.

May cause respiratory irritation. May irritate eyes and skin.

### IARC Monographs. Overall Evaluation of Carcinogenicity

Not listed.

Reproductive toxicity Components in this product have been shown to cause birth defects and reproductive disorders in

laboratory animals.

Specific target organ toxicity -

single exposure

Causes damage to organs. Respiratory system. Heart. Kidneys. Central nervous system.

Specific target organ toxicity -

repeated exposure

Causes damage to organs through prolonged or repeated exposure. Respiratory system. Heart.

Kidneys. Central nervous system.

**Aspiration hazard** If aspirated into lungs during swallowing or vomiting, may cause chemical pneumonia, pulmonary

injury or death.

**Chronic effects** Causes damage to organs through prolonged or repeated exposure. Prolonged inhalation may be

harmful.

### 12. Ecological information

**Ecotoxicity** 

The product is not classified as environmentally hazardous. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment.

#### **Ecotoxicity**

Components **Species** Calculated/Test Results 2,2'-Oxydiethanol (CAS 111-46-6) **Aquatic** LC50 Fish Western mosquitofish (Gambusia affinis) > 32000 mg/l, 96 hours ETHYLENE GLYCOL (CAS 107-21-1) Aquatic Fish LC50 Fathead minnow (Pimephales promelas) 8050 mg/l, 96 hours

Persistence and degradability

No data is available on the degradability of any ingredients in the mixture.

Bioaccumulative potential

Partition coefficient n-octanol / water (log Kow)

ETHYLENE GLYCOL -1.36

No data available. Mobility in soil

Other adverse effects No other adverse environmental effects (e.g. ozone depletion, photochemical ozone creation

potential, endocrine disruption, global warming potential) are expected from this component.

#### 13. Disposal considerations

**Disposal instructions** Collect and reclaim or dispose in sealed containers at licensed waste disposal site. Incinerate the

material under controlled conditions in an approved incinerator. Dispose of contents/container in

accordance with local/regional/national/international regulations.

Local disposal regulations

Dispose in accordance with all applicable regulations.

Hazardous waste code

D002: Waste Corrosive material [pH <=2 or =>12.5, or corrosive to steel]

The waste code should be assigned in discussion between the user, the producer and the waste

disposal company.

Waste from residues / unused

products

Dispose of in accordance with local regulations. Empty containers or liners may retain some product residues. This material and its container must be disposed of in a safe manner (see:

Disposal instructions).

Since emptied containers may retain product residue, follow label warnings even after container is Contaminated packaging

emptied. Empty containers should be taken to an approved waste handling site for recycling or

disposal.

### 14. Transport information

DOT

Not regulated as dangerous goods.

IATA

Not regulated as dangerous goods.

**IMDG** 

Not regulated as dangerous goods.

Transport in bulk according to Not established.
